

## BLACKBERRY® PEARL™ 3G SMARTPHONE

Mobilise your staff with the new BlackBerry® Pearl™ 3G smartphone – a compact, affordable smartphone with powerful features and access to Telstra's advanced networks, services and applications

### Product Summary

The smallest BlackBerry smartphone yet, the new BlackBerry Pearl 3G smartphone is a powerful, compact and stylish smartphone that offers a host of versatile functions to keep your staff informed, in touch and in control. It's an ideal way to achieve the benefits of mobile working for a larger workforce.

With Telstra's advanced network and services, the new BlackBerry Pearl 3G smartphone can really perform. The superior coverage and speed of the Telstra Next G™ network enables your staff to be productive in more places. What's more, they can access a range of useful business services and applications to make working on the go more efficient. All this comes with cost-effective plans and simple management.

### Product Features

#### Outstanding screen display

A sharp, high-resolution display supports over 65,000 colours for superb clarity.

#### Simple one-handed typing

An innovative 20 key QWERTY layout is combined with SureType® software that learns typing and word patterns so you can type easily.

#### Easy navigation

Optical Track Pad navigation lets you scroll and access features quickly.

#### Long lasting battery Life

Staff can stay connected for longer with talk time of up to 300 minutes.

#### Communicate the way you want

As well as voice, push email and the ability to view common text and graphics documents, BlackBerry® Messenger (BBM™) instant messaging lets you create groups and share pictures, send voice notes and share calendars with others on BBM™.

#### Advanced multimedia capabilities

Enjoy videos and music with excellent visual and sound quality, while the 3.2 mega-pixel camera provides image stabilisation, auto-focus, auto-flash and zoom.

#### Business applications and services

Move beyond email with access to business applications and services and have all the important information you need at your fingertips. Some of the supported services and applications include; Telstra My Place, BigPond®, Mobile FOXTEL from Telstra and Whereis® Navigator.

## Product Benefits

With the BlackBerry Pearl 3G smartphone and the Telstra Next G™ network, your staff can be more responsive. They can deal with issues on the spot, quickly answer sales enquiries and have information at their fingertips through remote access to documents in the office.

Increased productivity is another advantage since staff can work on the go and at a time and place that suits them. This enables them to get more done in the day, while the improved flexibility enhances job satisfaction.

Staff also have one-click, one-screen access to key Telstra Business mobile services via the 'My Place' icon. They can conduct searches through Sensis® while Whereis® Australian maps lets them use GPS navigation with real-time, audible, turn-by-turn directions. They can also get latest business news, finance market updates and weather forecasts.

Trouble-free management matches the convenience and functionality of the BlackBerry Pearl 3G smartphone. Strong back-end security and policy management makes administration simple and Telstra offers fixed-price per month BlackBerry email plans for easy budgeting.
